Comment Text :

--->To Whom It May Concern:

1 I am definitely against the Yucca Mountain Project. I believe it is an extremely  
dangerous and unsafe situation with various  
2 ramifications that could drastically harm the population of Nevada. I believe the  
citizens of Nevada and the neighboring residents of Utah have already done our fair  
share for the United States. With the Nevada Test Site and the harmful and deadly  
3 experiments that were conducted dealing with nuclear testing, I feel we have paid a  
dear price. I do not want to pay further, nor do I want to have my children's lives  
endangered. I also believe it is ludicrous to think of shipping nuclear waste across  
the country to this site. What an ideal target for a terrorist attack! Not only  
would the citizens of Nevada be put in danger, but every citizen along the travel  
route as well. Yucca Mountain is not suited for this kind of waste storage. Please  
reconsider this unwise plan.
